

## **JAMIL A. KHAN**

### **Professor**

Department of Mechanical Engineering, College of Engineering  
University of South Carolina, Columbia, SC 29208  
Tel: (803) 777-1578; Fax: (803) 777-0106

### **PROFESSIONAL PREPARATION**

Ph.D. Mechanical Engineering, Clemson University, 1988  
M.S. Mechanical Engineering, Clemson University, 1984  
B.Sc. Mechanical Engineering, Bangladesh Univ. of Engineering & Technology, 1977

### **APPOINTMENTS**

Chair of Mechanical Engineering, University of South Carolina, Nov. 2007-Present  
Interim Chair of Mechanical Engineering, University of South Carolina, July 2005-Oct. 2007  
Professor of Mechanical Engineering, University of South Carolina, August 2004-Present  
Associate Prof. of Mechanical Engineering, University of South Carolina, August 1996-July 2004  
Interim Assistant Dean for Minority and Woman, College of Engineering, USC, August 1997-1998  
Assistant Prof. of Mechanical Engineering, University of South Carolina, Aug 1990-July 1996  
Assistant Professor, Valdosta State University, Valdosta, GA, September 1988- June 1990

Licensed Professional Engineer in South Carolina  
Member of the American Society of Mechanical Engineers

### **RELEVANT RESEARCH EXPERIENCE**

- Professor Khan has been involved with Ship System Thermal Management (SSTM) initiative sponsored by ONR for the last four years. As part of this initiative he has developed and incorporated several thermal models for dynamic simulation in VTB (work funded by ONR)
- Professor Khan has performed research in thermal management issued related to high band gap devices fabricated with Gallium Nitride (work funded by CMAT, SC)
- Professor Khan has developed dynamic thermo-chemical models of tubular Solid Oxide Fuel Cell for hybrid power generating system (work funded by ESRDC consortium, ONR)
- Professor Khan studied fluid flow and pressure drop related to micro-channel flow for Accelerator Production of Tritium (funded buy DOE SCUREF)

### **AWARDS**

- Finalist Mungo Graduate Teaching Award, 2002 and in 2004
- Litman Teaching Award, College of Engineering, USC, 1999 (Highest teaching award of the college, awarded to 1 faculty per year)
- Mungo Teaching Award (University of South Carolina Teaching Award), 1996
- Professor of the Year, Pi Tau Sigma (Mechanical Engineering Honors Society), 1996
- Teacher of the Year, National Society of Black Engineers, 1993

- Best Teacher of the Year, National Society of Black Engineers, 1994
- Lilly Teaching Fellow, University of South Carolina, 1992-93
- Outstanding Graduate Teaching Assistant, Clemson University, 1988

## **SYNERGISTIC ACTIVITIES**

Has a very strong teaching record, he serves as the **Director of Undergraduate Studies** in the Department of Mechanical Engineering. Khan has a strong record of mentoring and assisting minority students. He is the **faculty advisor of the National Society of Black Engineer's (NSBE) USC**. During the time Khan was the faculty advisor of NSBE, its members has taken on several projects to enhance retention and success of minority students in engineering. Dr. Khan continues to be an active participant in the Ronald McNair Summer Research Program. He leads the research faculty in coordinating the summer research program and plays a role in helping students develop research programs and mentoring them through the research process. He is active with the SCAMP program. Khan has also served as the Acting **Assistant Dean of Minorities and Women at USC**.

## **RESEARCH INTERESTS:**

Modeling of manufacturing processes, temperature distribution during machining, heat transfer and fluid flow with phase change (solidification/melting in casting, welding), computational and experimental fluid dynamics related to contaminants transport in rooms, heat transfer in porous media, micro-channel heat transfer. Thermodynamic analysis of IC Engines, CFD analysis of combustion processes etc.

**PROFESSIONAL SERVICE:** Technical Reviewer for: *J. of Mechanical Engineering Research and Development; Int. Journal of Mass and Heat Transfer; J. of Metallurgical Transactions; J. of Numerical Heat Transfe;AIAA J. Thermo Physics and Heat Transfer; ASME J. of Heat Transfer.*

## **FUNDED RESEARCH:**

Had external funding (as either PI or CoPI) for every single year (morethan \$5 million total). Funding sources: NSF, DoE, NSF/EPSCoR, DHHS/NIOSH, SCUREF, SCHWMF, and Industries. ***The following are currently active grants:*** a \$ 607, 228 DHHS/NIOSH grant as Co-PI with Feigley; a \$155,000 grant from Westinghouse Company as PI, a \$ 640,000 grant from Army TACOM as Co-PI with Huhns.
