The College of Engineering and Information Technology at the University of South Carolina invites applications for faculty positions at all ranks for a new program in Biomedical Engineering. In particular, we are seeking faculty candidates with Biomedical Engineering research interests for the Departments of Chemical and Mechanical Engineering. Successful applicants are expected to establish an externally-funded high-quality research program and work closely with the Clinical Orthopedic faculty in the School of Medicine. They are also expected to develop courses for a new graduate degree program in Biomedical Engineering and supervise research projects by orthopedic residents. An existing endowment will support all research interactions with the Department of Orthopedics.

Applicants should send curriculum vitae, a statement of research and teaching plans, and names of three references to: Biomedical Engineering Search Committee, c/o Professor William Ranson, College of Engineering and Information Technology, University of South Carolina, Columbia, SC 29208, or e-mail their packages to: ranson@engr.sc.edu. The University of South Carolina is an affirmative action, equal opportunity employer.
