Mechanical Engineering Department  
University of South Carolina

FACULTY POSITION—Systems Control. The Department of Mechanical Engineering at the University of South Carolina invites applications for a tenure track position at the rank of Assistant or Associate Professor in the area of Systems Controls. Anticipated start date is August 2003, but start date may be postponed until the position is filled. Applicants must have an earned Ph.D. in Mechanical Engineering or closely related discipline and have done work in Systems Control; which could include process controls, mechatronics and the design of electro-mechanical systems. The successful applicant will demonstrate potential for outstanding accomplishments in research and a strong interest in teaching. The successful candidate is expected to (a) develop an externally funded research program in their area of specialization, (b) teach both undergraduate and graduate level courses (including development of new courses as required to support the research program) and (c) actively serve the department, university and profession. Interested individuals are encouraged to send their current curriculum vitae, addresses of three references, statement of proposed research and teaching plans to Dr. David Rocheleau, Controls Search Committee Chair, Department of Mechanical Engineering, University of South Carolina, Columbia, SC 29208. The University of South Carolina is an equal opportunity employer.
